Pit Posse Adjustable Suspension Saver

Pit Posse's adjustable suspension saver is a one of a kind and definitely nothing like this innovative product out on the market. The adjustable suspension saver keeps your bike strapped down tight without damaging fork seals and springs from prolonged pressure of tie-downs during transportation. Pit Posse Suspension Savers are made from aluminum and have four adjustment points to fit most off-road motorcycles (7½" to 12"). The uniquely designed arch keeps it locked in place to eliminate shifting and movement during transport (Note: Arch must face toward the back of the bike).

The Pit Posse Adjustable Suspension Saver Tool Part #: PP2860 is available from Pit Posse and retail shops for \$29.95. Pit Posse products are available through your local dealer or by visiting www.pitposse.com. To find your local Pit Posse dealer, please visit our website for our dealer locator option. For product information or dealer inquiries, please call toll free 866.447.6773.

About Pit Posse:

Established in 2003, Pit Posse is a manufacturer and retailer of trailer accessories, tools and bike accessories. With more than 220,000 items in stock and over 650 items manufactured under the Pit Posse and Outlaw brands, the company has quickly grown to become one of the leaders in the power sports industry.
